TOTAL CONTROL AT YOUR FINGERTIPS
The most advanced Canine Hydrotherapy Treadmill

For the last 10 years, Tudor Treadmills have designed and manufactured Canine Hydrotherapy Treadmills based in Sheffield. We have been working hard to create our latest treadmill, The Neptune. By working with some of the UK’s top Hydrotherapists and listening to customer feedback, we have developed a state-of-the-art product. The Neptune will have everything you need at your fingertips, to support your patients.

Our dedicated team which includes two qualified Hydrotherapists with several years’ experience in the Canine Hydrotherapy field. Our team work around the clock to ensure customers are looked after from quotation through to installation and are also supported with excellent after-sales care for many years thereafter. We take the time to understand our customers requirements, attending site surveys, liaising on technical drawings and advising on what will be required to ensure a smooth, trouble-free installation and operation.

We appreciate that buying a Hydrotherapy Treadmill is a substantial investment and to this end we have several options available for our customers, such as Third-Party Finance Companies. Should you wish to spread the cost of the investment and investigate finance options.

Last year, we were extremely excited to be the first manufacturer in the UK to launch our very own Canine Hydrotherapy Centre here in Sheffield. The Centre also doubles up as our show room for customer demonstrations. If you would like to come along to view and try the equipment, then please get in touch.
The Neptune aquatic treadmill provides a bespoke controlled setting for Hydrotherapists to stand alongside their patients and provide tailor made treatments. Hydrotherapists would expect to treat a variety of patients with orthopaedic and neurological conditions, rehabilitation, pre and post-operative, fitness and conservative management.

All installations vary and depend upon many factors. If you choose to have a tank fed system this will include a similar set up to the image below and all of the features listed, including the water tank and plant equipment. Pool fed systems will be subject to requirements, please ask for more information.

- Walk through design
- Low lip patient access
- 360° viewing glass
- Forward & reverse belt
- Automatic incline as standard
- Non-slip belt
- Moveable controller
- Swivel mounted controller
- Advanced easy to use software
- App available
- Easy clean function
- Wide side platforms
- Exclusive Hydrotherapist seat
- Exclusive isolation plate
- Emergency waste drain
- 2 Sizes available
- Tank or pool fed systems
- Maintenance packages
- Standard & bespoke installations
- 2 Protected emergency stop buttons
- 2 Sizes available
What makes us different?

Tudor Treadmills are designed by Hydrotherapists for Hydrotherapists and below are a few examples of some key differences.

**Tudor Care**

During the initial enquiry stage, our dedicated team including a qualified Hydrotherapist will be on hand to answer any questions you may have. The team will give you as much information as possible to get you prepared in the lead up to your installation. After purchasing your Tudor Treadmill, our team are always at the end of a phone, email or text to help you with your queries. Our aim is to solve your problem in the shortest and most realistic time frame, ensuring your business continues as normal.

**Easy Clean Function**

We have created an easy to use bespoke cleaning design to help aid in reducing the Hydrotherapists time cleaning.

- Easy to use functional design
- Treadmill can be released and lifted with just one hand
- Full cleaning access to all areas of the chamber

**Swivel Mounted Touch Screen Controller**

Our unique touch screen controller uses a Tablet PC that is mounted on the side of the treadmill, with an adjustable swivel feature making it easy to use.

- Easily adjustable while treating patients
- Can slide along frame while in a session
- Accommodates both lefthanded & righthanded Therapists

Easy to use software

**Included as Standard**

Total control at your fingertips!
The tablet PC provides the operator with an intuitive and easy to use interface. All the treadmill’s advanced functions can quickly and simply be accessed by the touch of the screen.

Features included in the software are:

- Fill Level Management
- Speed & Incline Management
- Timer Functions
- Temperature Control

- Recording Feature
- Automatic Training Function
- Patient Database System
- Exportable Data
General Specifications

Our standard layout can be tailored to fit your own specific requirements and a thorough site survey will be required to enable us to draw you a layout and advise where necessary.

We will make sure that the location of each of the major components of the treadmill (i.e. treadmill body, pump skid, filter and water tank) can be positioned to best utilise the space you have available. In some instances, this may even mean that some of the components are sited in a different building or on a different floor.

Standard Installations are measured as the treadmill being in the same room on the same floor as the tank / pool. We can offer bespoke installations this will be at additional cost and a quotation will be supplied following survey.

If you would like a costing prior to order, we can arrange that on submission of layout and drawings being supplied.

We offer a full 12 month parts warranty with all treadmills, as standard. In the unlikely event that the components are sited in a different building or on a different floor.

Any fault occurring for our warrantee’s due to neglect, misuse or lack of preventive maintenance will not be covered.

Compass Canine Hydrotherapy

"From the moment I contacted Tudor Treadmills for a quote their service has been excellent. They answered all my questions and provided a great deal of support in the lead up to my installation. With any project of this size there will always be bumps along the way, but Austin, Samantha and the team have always been on hand to help. Tudor directly liaised with the company providing my pool to help ensure that the installation was smooth, and the equipment could be placed in the best place with minimal fuss. The treadmill itself is exactly as I expected, and very intuitive to use. Any time I've got a bit stuck on how to work something, Samantha has been at the other end of the phone to talk me through it. I love the way the belt lifts, making it easy to clean underneath."

Bishop’s Stortford Veterinary Hospital – Hydrotherapy Unit

"After a very long process comparing several different aquatic treadmills by price, height, length, style, and operation for us it came down to customer services. We had spoken to all the manufacturers and compared their customer services. This is what in the end led us to buy the Neptune Treadmill from Tudor Treadmills. A long time before we decided on which aquatic treadmill, we would get they were always really happy to help and answered any questions we had. They even designed a room layout for us before we agreed, to help us see what it would look like in the hydrotherapy unit. Their replies were nearly instant which was promising to us if anything went wrong, we would be able to get it repaired quickly. From an aesthetic point it was by far the nicest looking aquatic treadmill for us and with it being run from a tablet meant we can access the internet and connect it to our patient record software. The treadmill is very quiet which is a huge benefit as our patients do not get distracted. We have the long (standard) version and I would recommend this as it allows large dogs to have a normal gait. It is very user friendly and easy to clean as the treadmill belt comes up so you can get right underneath without any issues. Customer service has continued to be excellent, and yes, we have had the odd minor issue and squeak. But Tudor Treadmills send someone out the following day to come and repair it. We have never been with it not running and Tudor Treadmills have never let us down and everyone has been really nice and helpful regardless to what time of the day, night or even weekend it is! I would also highly recommend getting the seat and plate."

Bilsby Canine Hydrotherapy

"Just had my Tudor Treadmill installed and love it. The service has been outstanding from start to finish. Old fashioned service with a state of the art product. Can’t recommend enough!"
